Mr. Konrad Bouffard
Round Rock Honey Company
1205 Keeshond Place
Round Rock, TX 78664

Dear Mr. Bouffard:

We have completed the stable carbon isotope analysis of your sample received recently. The data are reported relative to the PDB standard and are believed accurate to ± 0.2 per mil.

SAMPLE	SAMPLE TYPE	$\delta^{13}C_{PDB}$
Honey 6/18/08	Honey	-25.2, -25.3

Yours truly,

Kenneth Winters
Laboratory Manager

CSL Ref.#G175

Analyses reported here represent only the specific sample submitted for analysis, not any other lot, container or quantity whether or not the sample was drawn from or once was part of that lot, container or quantity. Coastal Science Labs does not accept responsibility for interpretation of these data as an indication of the presence/absence or concentration of cane or corn sugars. Any such interpretations are solely the responsibility of the party using these data for that purpose.
